OCCUPATIONAL HEALTH AND SAFETY

Did You Know? March is Ladder Safety Month

Each year in the U.S., more than 100 people die and thousands more are injured from ladder-related falls.

There are five major causes for ladder fall incidents:

- **Incorrect extension ladder setup angle** — One of the leading causes of ladder-related injuries is a ladder sliding out at the base due to an incorrect [setup angle](#). See *image*.
- **Inappropriate ladder selection** — [Selection of a ladder with the proper duty-rating](#) also helps avoid structural failure.
- **Insufficient ladder inspection** — Reduce the likelihood of structural failure by practicing [regular inspection and maintenance](#).
- **Improper ladder use** — Activities such as overreaching, carrying objects, applying excessive force, slips, and missteps are also frequent causes of ladder-related fall injuries.
- **Lack of access to ladder safety tools and information** — Learn more about ladder safety here!: <https://www.cdc.gov/niosh/newsroom/feature/ladder-safety.html>

If you would like guidance on ladder safety & inspection,
please email FM-OHS@virginia.edu.

Tools for Your Toolbox: Suicide in Construction Awareness

The topic of suicide seldom appears in the same sentence as the topic of construction. While neither media nor the public view construction workers as “suicidal,” a [CDC study](#) found the suicide rate for construction workers is the *second highest* of all industries: The suicide rate amongst construction workers is 4+ times greater than the national average. The construction workforce must undergo a cultural change for suicide prevention to be successful. Changes include:

- ★ Better communication,
- ★ Overcoming resistance to seeking help, and
- ★ Recognition of the problem.

Always remember: look out for one another, and reach out when you need help!

[Lean more about suicide in construction.](#)

OCCUPATIONAL TRAINING

Lunch & Learn: Best Practices of Permitting

Our FM/UVA-specific sessions will also provide an opportunity to drive professional development and build your business acumen and knowledge of “how FM works”.

Each Lunch and Learn session will be presented by a UVA subject matter expert (SME) with a unique link to you and our operations.

Each session will begin at 12:00 PM.

Plan for 45 minutes, but it's ok if you have to leave after 30.

How to Register & Attend:

Users can attend in-person at Skipwith 112 or virtually via Teams.

Register for the March session on Permits:

<https://at.virginia.edu/UVAFMLLPermits2024>

Attendance is not tracked.

In April, FM Occupational Training will be hosting multiple sessions on **Finance at UVA FM**, including:

- The FM Financial Model
- Life of a Purchase Order (PO)
- Life of a Travel & Expense (T&E) Transaction

Future Lunch and Learn sessions will be posted on the FM screens and the **FM Occupational Training site**.

To: Cameron Ratliff, Corey Jones, David Hermes, Marcus Klaton, Justin Shiflett, Gordon Durrett, and Sergio Mendoza

“I offer a huge round of thanks on behalf of Environmental Resources for Utilities help remediating a release of concrete waste into the storm sewer at Scott Stadium as a result of contractor activity on Friday February 16. Their quick response ensured the material did not reach the downstream creek and prevented negative impacts to aquatic life, a timely concern with rain in the forecast later in the day. Their teamwork was impressive in the way they efficiently and effectively accessed a sensitive location (grass field with heavy equipment) and cleaned the storm sewer. Please forward this message to anyone I accidentally omitted. Thank you again!”
