## **CONSTRUCTION ALERT**

Report No. 08

### **CONCERNING IMMINENT CONSTRUCTION ACTIVITY**

## **35kV Ductbank Project**

**ITEMS OF INTEREST:** One entrance to the South Parking Garage will be closed from Nov.7 to Nov.18.

**IMMINENT ACTIVITY:** Faulconer will be installing a ductbank in front of the South Parking Garage entrance starting Monday, Nov. 7. One entrance to the garage will always remain open during construction.

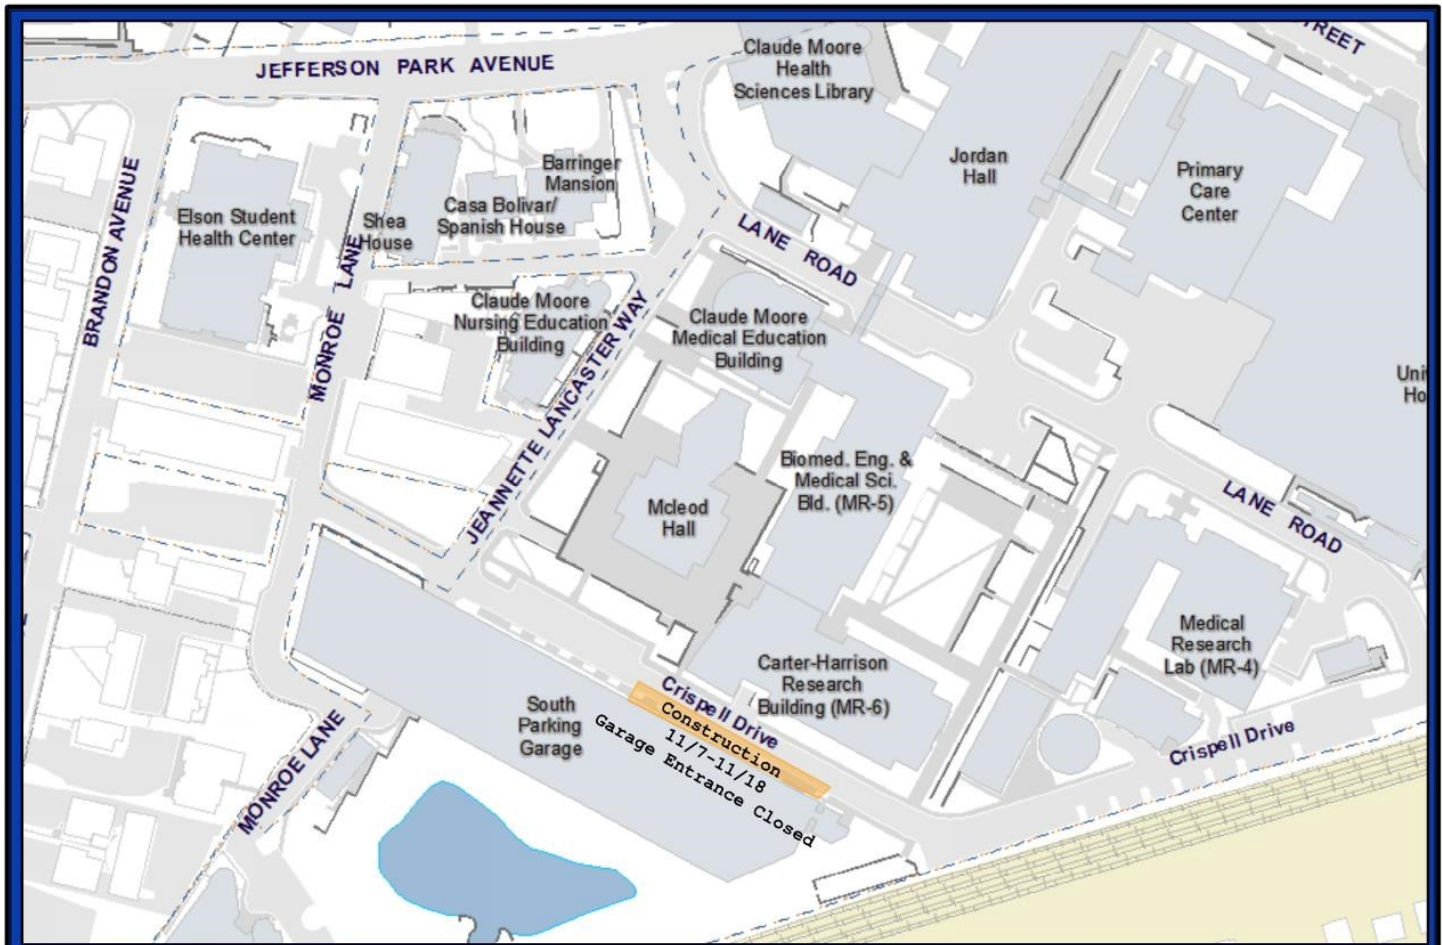

**SCHEDULE:** Crispell Drive in front of the South Parking Garage will be reduced to one lane of traffic from 7:30 am to 5 pm starting Nov. 7 to Dec. 9.

**BACKGROUND:** The 35kV Ductbank Project will install 2.75 miles of 35 kV electrical ductbank to provide a dedicated underground power feed to the University of Virginia. The new ductbank will connect the existing Sherwood, Alderman, and Cavalier substations through a combination of two, four, and six way underground ductbanks consisting of 8" PVC conduits encased in concrete. Large concrete electrical vaults will be installed at approximately 500 foot intervals along the ductbank, the largest vaults measure 9'x9'x17' outside dimensions. The installation of the ductbank requires road closures in several areas. The project will begin in July 2016 and will be complete in July of 2017.

**INTERIM ROUTES:** Flaggers will be in place to direct traffic. The entrance closest to Jeannette Lancaster Way will remain open.
