DATE: May 8, 2018

CONSTRUCTION ALERT

Brandon Avenue Green Street & Utilities Project Update

ITEMS OF INTEREST:

The area north of Nau Hall, directly below the South Lawn pedestrian bridge over JPA, will be under construction from 5/13/18 to 7/6/18. Flaggers will be in place to keep pedestrian access open along the sidewalk adjacent to JPA. The steps leading down from JPA into the northwest entrance of Nau Hall will be closed during this time. Please use another door to enter/exit the building.

BACKGROUND:

In support of the redevelopment of the Brandon Avenue district, this project will install a new central UVA utilities corridor that will serve the district, and will include new electrical ductbank lines, domestic waterlines, chilled waterlines, low-temperature hot waterlines, telecom, and sanitary sewer and stormwater services. This project will also construct a new “Green Street” that will include a bioretention median in the center of the new one-way street around the district. In addition, the southern end of Monroe Lane will be realigned to a straighter road alignment that will allow for better access to the UVA Endoscopy building and also allow for more green space near the South Pond.
