DATE: June 7, 2018

CONSTRUCTION ALERT

Alert No. 13

CONCERNING IMMINENT CONSTRUCTION ACTIVITY

Brandon Avenue Green Street & Utilities Project Update

ITEMS OF INTEREST:

In order to facilitate construction activities in the area, the parallel on-street parking on Brandon Ave and the southern portion of Monroe Lane will be permanently eliminated, starting at 6AM on Monday June 11th. Any vehicles that have not vacated by 6AM on Monday, June 11, 2018, will be subject to ticketing and towing.

BACKGROUND:

In support of the redevelopment of the Brandon Avenue district, this project will install a new central UVA utilities corridor that will serve the district, and will include new electrical ductbank lines, domestic waterlines, chilled waterlines, low-temperature hot waterlines, telecom, and sanitary sewer and stormwater services. This project will also construct a new “Green Street” that will include a bioretention median in the center of the new one-way street around the district. In addition, the southern end of Monroe Lane will be realigned to a straighter road alignment that will allow for better access to the UVA Endoscopy building and also allow for more green space near the South Pond.
