**PROJECT CONSTRUCTION ALERT #10**  
**Gilmer-Chemistry Renovation Project**

**Construction Material Delivery**  
**Chemistry Loading Dock and Local Travel Impacts**

Please be advised that the Chemistry Building Loading Dock will be closed to vehicular traffic/deliveries from **Thursday, August 30 5:30 AM to Friday, August 31 5PM**.

The area adjacent to the Chemistry loading dock and Geldard Drive up to the lane to the AFC Loading Dock will be closed to accommodate delivery vehicles and a crane to move construction materials to the Chemistry Building roof. Pedestrian “egress only” pathways will be maintained behind barricades in the area. In the early morning hours of Thursday, August 30, the crane will arrive and set up at the Chemistry Loading Dock. The delivery trucks and hoisting of construction materials will begin shortly thereafter. The delivery path will travel along Alderman, Whitehead, and Geldard Drive. Vehicular impacts along the travel path are expected to be minimal but intermittent congestion to is anticipated to adjacent parking areas along Geldard Drive. The crane will be removed from Grounds on Friday afternoon.

This work is subject to change as a result of inclement weather conditions. Future Construction Alerts will keep you updated with the progress of the work and any required changes in schedule.

Thank you for your cooperation. Please contact us with any questions or concerns.
