Lawn Accessibility Project: Construction Alert No. 2

Background:
The University has approved a project to construct two permanent ADA ramps on the Lawn, located adjacent to Pavilions V and IX. These ramps will provide a permanent, continuous, barrier-free route to traverse the Lawn terraces from the Rotunda to Old Cabell Hall.

Upcoming Construction Activity:
Site fencing installation will begin on Thursday, July 5th. The contractors will access the two sites via McGuffey Alley and up the middle of the Lawn. A material laydown area will be placed near each project site, but away from the tree-protection zones. Please see the diagram below for more details.

Construction Impacts:
Excavation required for this project will involve excavators and other heavy construction equipment. This work will include back-up alarms and general mechanical noise.

Construction Schedule:
Construction is scheduled to take place from July 5 – October 26
Daily Work hours allowed will be 6:00am - 5:00pm until the students return, at which time the work day will start at 8:00am.

Details:
The Design was completed by Rhodeside & Harwell, Landscape Architects
The Construction will be executed by UVA’s Project Services Department
