CONSTRUCTION PROJECT ALERT

Pavilion VI Chilled Water Line Install

Items of Interest: Sidewalk Closure

Project Background: UVA Energy and Utilities is bringing central chilled water from an existing line in front of the East Range to Pavilion VI. The line is being directionally drilled, and will require a receiving pit to tie in to the existing utility at the top of the stair between Hospital Drive and East Range Road. This work will take place from August 1-17, 2018.

Imminent Construction Activity: Directional drilling will begin August 1. The stair between Hospital Drive and East Range Road will be closed through August 17. Signage will be placed at the closed stair directing pedestrian traffic to alternate routes.

Impacted Area:
