CONSTRUCTION PROJECT ALERT
Carr’s Hill Renovation

Imminent Construction Activity: Water line tie-in on Carr’s Hill Road

- This activity will require the closure of several A0 Permit Parking spaces on Carr’s Hill Road to allow for a passing lane. Carr’s Hill Road will remain open and flagmen will direct traffic. Please see the attached diagram showing the location. Normal-sized vehicles should be able to pass by, but large tractor trailers or delivery trucks may not be able to get past due to the location of the exiting water line under the road.

- Schedule:
  - Phase 1: Sawcut and asphalt removal, steel plate installation: Saturday, March 2, 7:00am – 4:00pm
  - Phase 2: Water line tie-in: Tuesday, March 5, 7:00am – 5:00pm.
