CONSTRUCTION PROJECT ALERT
East Range Stormwater Management Phase II

Items of Interest: Closure of Green Alley; Evening work

Imminent Construction Activity:

Extreme temperatures have slowed Addastone installation in the alleys adjacent to East Range Road, planned for July 15-22. Lile and Key Alleys will reopen as planned on 7am July 22. Closure of vehicular and pedestrian traffic in Green Alley will continue through 7pm Thursday, July 25.

Evening Work:
Due to temperature sensitivity of the Addastone product, this work must be done in evening hours. Crews will begin work at 7pm and may work as late as 4am. The work is quiet hand work requiring only a small residential generator to power work lights after dark. The work crew will attempt to complete work near occupied residences earlier in the evening. All possible measures will be taken to ensure crews work quietly and do not disturb residents.

Pedestrian and vehicle access will be prohibited in Lile and Key Alleys until 7am Monday morning and in Green Alley until 7pm Thursday evening. The Addastone material must cure properly before any traffic is allowed on the paved road surfaces. Otherwise, the finish will be damaged. Barriers will be installed at all entrance points to the area to prevent traffic.

Parking relocations will be coordinated directly with permit holders by P&T.

This work is weather dependent, as well as dependent of the schedule of the asphalt sub-contractor. We will make all possible efforts to accomplish paving as scheduled. Should work be delayed, residents will be alerted immediately and paving will be rescheduled.

See attached site plan for additional details and revised schedule.
