March 5, 2019

Construction Alert No. 5

Softball Stadium & Player Development Center
Massie Road Lanes & South Pedestrian Route Closure

Background
This project will construct a new Softball Stadium and Player Development Center in the current Soccer Practice Field location.

Project Schedule
Monday October 1, 2018 through January 2020.

Upcoming Construction Activity
Sanitary sewer line installation across Massie Road. Massie Road lane closures and south pedestrian route will be closed starting on the afternoon of Wednesday March 6, 2019 until Friday March 15, 2019.

Impacts
Pedestrian route closure along the south side of Massie Road from Copeley Road to Farrish Circle. This will return the pedestrian egress path back to the north side of Massie Road as it was prior to March 1st. Signage will be provided at both ends of the sidewalk to acknowledge the closure and give direction to pedestrians for the north route. See the map on the next page that shows the sidewalk closure in red and the north pedestrian route in green. During this time there will be one to two lanes of traffic closed on Massie Road, M-F, 7am-5pm. Barriers and cones will be set up for the new traffic patterns and flaggers will be used when traffic is down to one lane. Trench work will be plated at the end of each day and all lanes of traffic will be restored to normal use.
