CONSTRUCTION ALERT
Alert No. 38

CONCERNING IMMINENT CONSTRUCTION ACTIVITY

Brandon Avenue Green Street & Utilities Project Update

ITEMS OF INTEREST:

Between Monday February 3, 2020 and Tuesday February 4, 2020 SL Williamson will be patching pavement in JPA, near the intersections of Brandon Ave and Monroe Lane. Traffic will be impacted during this work, and SL Williamson will have flaggers in place to help direct traffic through the area.

Please see the sketch below showing the areas affected by this work.

BACKGROUND:

In support of the redevelopment of the Brandon Avenue district, this project will install a new central UVA utilities corridor that will serve the district, and will include new electrical ductbank lines, domestic waterlines, chilled waterlines, low-temperature hot waterlines, telecom, and sanitary sewer and stormwater services. This project will also construct a new “Green Street” that will include a bioretention median in the center of the new one-way street around the district. In addition, the southern end of Monroe Lane will be realigned to a straighter road alignment that will allow for better access to the UVA Endoscopy building and also allow for more green space near the South Pond.
