CONSTRUCTION ALERT
Alert No. 45

CONCERNING IMMINENT CONSTRUCTION ACTIVITY

Brandon Avenue Green Street & Utilities Project Update

ITEMS OF INTEREST:

Between Saturday August 1st and Sunday August 2nd, the City of Charlottesville Gas Department will be lowering the existing gas line along a section of Monore Lane and within a portion of the temporary surface parking lot between Endoscopy and the South Garage. The section of Monroe Lane designated in red on the map below will be closed to all traffic during this time. Those needing to access Endoscopy will need to use Brandon Ave instead. Please refer to the map below for updated traffic routes to and from Endoscopy during this work.

The scheduled rain date for this work is the following weekend, August 8th and 9th.

BACKGROUND:

In support of the redevelopment of the Brandon Avenue district, this project will install a new central UVA utilities corridor that will serve the district, and will include new electrical ductbank lines, domestic waterlines, chilled waterlines, low-temperature hot waterlines, telecom, and sanitary sewer and stormwater services. This project will also construct a new “Green Street” that will include a bioretention median in the center of the new one-way street around the district. In addition, the southern end of Monroe Lane will be realigned to a straighter road alignment that will allow for better access to the UVA Endoscopy building and also allow for more green space near the South Pond.
