CONSTRUCTION ALERT
AHU-2M-1A Upgrades

ITEMS OF INTEREST:
- The AHU-2M-1 Upgrades project in University Hospital has the 1st of two crane dates scheduled for Saturday, 10/30, starting at 7:00 am.
- Please see the following page which shows the general location as well as the partial lane closure during the crane activity duration; the road partial closure impact will be from 7:00 am until 12:00 pm.
- Lane Road will only be completely closed to traffic while the crane is lifting and setting its load, and then has returned its boom to the set location on the truck; this will most likely be between 8:00 am – 10:00 am.
- Pedestrians and vehicles should avoid using Lane Road between Crispell Drive and the Hospital’s Loading Dock if possible during this activity.
- An alternate route is Crispell Dr. to Jeanette Lancaster Way, to Lane Rd. and vice-versa.

BACKGROUND:
- This activity is the 1st phase of the AHU-2MA-1 Upgrades project; there will be more crane & road impacts over the course of the next several months as the work will include staged deliveries of materials and HVAC equipment that will be lifted to the 2M Level roof.
