CONSTRUCTION ALERT
Student Health & Wellness Center

ITEMS OF INTEREST:

Monroe Lane will be closed to thru-traffic, including bikes and pedestrians, starting February 22, 2021. Monroe Lane is scheduled to re-open April 22, 2021.

*See attached site map for alternate route locations.

Areas impacted by closure include:

- Vehicular and Bike access to and from UVA Endoscopy, Bond House, and M9 Lot Detour through Brandon Ave. No Access via Monroe Lane.
- Pedestrian Access to and from UVA Endoscopy Detour through Crispell Drive and the South Hospital Garage.

BACKGROUND:

The new four-story Student Health and Wellness Center will replace the existing Elson Student Health Center and provide two levels of parking below. Located in the newly developed Greenstreet District, the building is located in close proximity to both Central Grounds and the Health System precinct. A variety of facility programs will expand the functions of a traditional student health center and serve as a “hub” for holistic wellbeing for all students, provide a healthy workplace for staff and offer a welcoming environment for visitors. Construction will be complete summer of 2021.

As part of the Student Health Project, Monroe Lane roadway, utilities, and hardscaping will be receiving updates. This roadway closure is to complete these updates.
