CONSTRUCTION ALERT
Alderman Substation Dedicated Fiber Line Installation by Dominion Energy

August 17, 2022

BACKGROUND:

- Project scope is to install 2-3” conduits for a dedicated fiber line to Alderman substation from Alderman Rd/Pratt Dr intersection.
- The conduits will follow and will be on top of the existing UVA-Dominion Energy 35kV ductbank along Pratt Dr.
- Dominion Energy’s contractors - TD Grounds and Rockingham Construction will be performing the excavation.
- Construction will start on August 22, 2022 and is expected to finish by September 9, 2022.

ITEMS OF INTEREST:

- Project mobilization starts on Monday, August 22nd.
- Intermittent closures of Pratt Dr may be required for installation. There will be crew directing the traffic.
- Work will occur in three sections and each section is expected to take 2 to 4 days. See below sketch for reference.
- No parking spaces are expected to be impacted during construction.
