CONSTRUCTION ALERT
CONTEMPLATIVE COMMONS

ITEMS OF INTEREST:
- Newcomb Rd vehicular impacts

DESCRIPTION OF WORK
On August 8, Hourigan Construction will begin work on the eastern abutment for a new pedestrian bridge over Emmet Street connected to the Contemplative Commons project. The construction will take over a portion of Newcomb Rd and will limit vehicular access between Newcomb Plaza and Brown College. The work will not impede pedestrian traffic or impact the parking area on Newcomb Rd at the northwest corner of Brown College. The area will remain fenced until completion of the new pedestrian bridge over Emmet Street in winter of 2023.

BACKGROUND:
The Contemplative Commons project will add a new 4-story academic building on the site of an existing surface parking lot adjacent to the Dell Pond and School of Education. New pedestrian bridges will create an ADA connection from Newcomb Plaza to the McCormick Rd Dorm area.
