CONSTRUCTION ALERT - REVISED

West Grounds Chilled Water Capacity Project – Phase 9A-3 Emmet St. Traffic Modification

1/9/23 – 1/20/23

**DATES REVISED**

BACKGROUND:
- Project scope is to connect the McCormick Road and Central Grounds chilled water loops and increase existing distribution line sizes to optimize plant operations.
- Construction will start in August 2021 and finish in February of 2023. The work will be completed in multiple phases.
- The project scope extends from in front of Kerchof Hall north along Cabell Drive, across McCormick Road and north along Newcomb Road to Newcomb Plaza then across Emmet Street, up the Emmet Street/McCormick Road Ramp and west a short distance along McCormick Road.

ITEMS OF INTEREST:
- Phase 9A-3 will shift Emmet St. work area starting Monday, January 9th.
- Phase 9A-3 will be complete on Friday, January 20th.
- Work crews will be operating both a day and night shift for the duration of the work period.
- The ramp from Emmet St. to McCormick Rd., which has been closed to traffic in recent weeks, reopened on Tuesday, December 6th. Once work resumes on 1/9/23, traffic travelling south on Emmet will be able to turn onto the ramp; traffic travelling north will not be able to turn. Traffic exiting the ramp to Emmet St. must turn right/south.
- Pedestrian access via the sidewalks along McCormick Rd and the ramp to Emmet St. will be maintained throughout this closure.
- This is the second segment of three required to run Chilled Water piping under Emmet St. Traffic in Emmet St. for these remaining two segments will be modified throughout, but one lane in each direction will continue to be maintained at all times. It is expected that the entire Emmet St. crossing will be complete by Friday, February 10th.
