CHEMISTRY ADDITION EXHAUST MANIFOLD PROJECT

ITEMS OF INTEREST:
- This alert includes an impact to the Wilsdorf Loading dock and Chemistry Drive due to building rooftop component demolition.
- ADA parking along Chemistry Way will be relocated to the adjacent parking lots.
- Sidewalk impacts will occur with ADA passage remaining a priority.
- Wilsdorf loading dock will not remain accessible at all times. This impacts delivery vehicles and trash/recycling services. Coordination with loading dock personnel will occur to allow for intermittent access for essentials.
- A spotter will be present to ensure the coordination of pedestrian safety and crane activity.
- Construction activity during daytime operations will create noise while demolition occurs.

SCHEDULE of IMPACT:
- 12.15.2023 through 01.05.2024
- Crane Location on Wilsdorf Loading Dock Drive & Delivery Truck on Chemistry Drive

BACKGROUND:
- The Chemistry Addition Exhaust Manifold Project is an Academic On-Demand renovation project that is underway. The project will incur interior and exterior impacts related to the exhaust manifold renovation efforts.
- Jamerson-Lewis Construction is the contractor performing this work for UVA.
