CONSTRUCTION ALERT
Gilmer Greenhouse Sanitary Sewer Relocation

ITEMS OF INTEREST:
- Pedestrian traffic will be limited to assigned entrances at the rear of Gilmer Hall and the entrance to the Biology Greenhouse. No pedestrian throughway is permitted in construction zone.
- Truck material import on Whitehead Road to Geldard Drive. Spoil material export on Gilmer Drive to Alderman Road.
- Sight Fencing and signage implemented to accommodate entrances.
- Construction to start September 11, 2023, with substantial completion January 5, 2024.
- Domestic Water Outage to accommodate active tie in to be scheduled at later time during project.
- Substantial excavation depths.

BACKGROUND:
- Energy and Utilities will relocate 220 linear feet of sanitary sewer piping that currently flows under the Biology Greenhouse. Hardscape improvements include a vehicular concrete access road, pedestrian sidewalks, and vehicular paver bands.
