CONSTRUCTION ALERT

Low Temperature Hot Water (LTHW) Phases 3B and 3C
3/6/2023 – 7/1/2023

BACKGROUND:
- The Low Temperature Hot Water (LTHW) Conversion Project will be removing steam service from several buildings and providing LTHW as the means of heat.
- Much of the steam and condensate piping in tunnels running from just east of Brown College to Emmet Street and from Emmet Street to Mem Gym will be removed and replaced with LTHW piping.

ITEMS OF INTEREST:
- We will be mobilizing on Newcomb Road and on the east side of Brown College on 3/6, see the map below. Initial work will involve installing perimeter fencing, staging materials, and opening portions of the utility tunnels for access.
- Beginning on 3/20, we will begin abatement and demolition work in the tunnel around Brown College in preparation for installation of new hot water piping.
- Abatement and installation of new work will continue into the summer of 2023.
- Coordination with other projects in the area will continue throughout this effort.
