Alert No. 04

**CONSTRUCTION ALERT****McCormick/Alderman Road Closure**

McCormick Rd. West Project &amp; Low-Temperature Hot Water Project

**McCormick Rd. and Alderman Rd. will RE-OPEN on  
Thursday, August 17****WHAT'S THE LATEST CHANGE?****McCormick Rd. Pedestrian & Vehicular Route August 10-16**

## **VEHICLES – August 10-16**

Starting Thursday, August 10 Bonnycastle Drive will be open to exiting traffic only. Access to the McCormick Road dorm area will be possible through the parking lot on the north side of the Physics Building via one-way traffic.

## **PEDESTRIANS - unchanged:**

**Pedestrians on McCormick:** The north sidewalk will remain open and barrier free for the entire project, with minor alternation of routing during minimal periods of work, as required.

Signage will be in place guiding pedestrians to the appropriate routes and ADA crosswalks. The sidewalk along the south side of McCormick Rd. will only be open to the entrances of the buildings. These sidewalks will have signage advertising No Pedestrian Thru Traffic and do not continue east. See map.

## **BACKGROUND**

These two projects advertised as one - the McCormick Road West project and the Low-Temperature Hot Water project will support pedestrian safety improvements and sustainability efforts at the University. The McCormick Road West project will narrow McCormick Road, widen its sidewalks and add additional landscaping. This phase of the Low-Temperature Hot Water project will install underground infrastructure needed to move the University away from using fossil fuels to generate steam and hot water for heating buildings.
