

Date: February 23, 2024

CONSTRUCTION ALERT

Fontaine Central Energy Plant

****2/8/24 – 3/27/24**REVISED!!**

ITEMS OF INTEREST:

- The Fontaine Central Energy Plant will be UVA's first fossil fuel-free plant. It will initially support the new Manning Institute for Biotechnology but will eventually provide service to the entire Fontaine park.
- Beginning **Thursday, February 8th** work will commence on a new underground electrical ductbank that will require the closure of an area of visitor and staff parking in front of 500 and 515 Ray C Hunt as shown on the following sketch.
- A site fence and barricades will be set up at this time that will remain in place through the end of this phase on **Wednesday, March 27th**.
- This will be the third phase in a multi-phase project that is due to run through early 2026.
- Subsequent phases will require modification to the perimeter site fence – separate alerts will be sent for each of those.
- Signage will be provided as need throughout the project to ensure that all temporary vehicular and accessible pedestrian routes are clearly identified.
