- Fire Detection Reactivated
  - Date / Time: ________________ Initials________

### REQUIRED PRECAUTIONS CHECKLIST
- Automatic Fire Detection has been disabled (A/N).
- Available sprinklers, hose streams, and extinguishers are in service/operable.
- Hot work equipment is in good repair.

- Requirements within 10 m (35 feet) of work:
  - Flammable liquids, dust, lint, and oil deposits have been removed.
  - Explosive atmosphere in area has been eliminated
  - Floors have been swept clean.
  - Combustible floors have been wet down, covered with damp sand or fire-resistant sheets.
  - Other combustibles have been removed where possible. Otherwise protect with fire-resistant tarpaulins or metal sheets are in place.
  - All wall and floor openings are covered.
  - Fire-resistant tarpaulins are suspended beneath work.

- Work on walls or ceilings/enclosed equipment:
  - Construction is non-combustible and without combustible covering or insulation
  - Combustibles on other side of walls have been removed.
  - Danger exists by condition of heat into another area
  - Enclosed equipment has been cleaned of all combustibles.
  - Containers have been purged of flammable liquids/vapors.

- Fire Watch / Hot Work area monitoring:
  - Fire watch will be provided during and for 30 minutes after work, including any coffee or lunch breaks.
  - Name: ____________________________
  - Phone #: ____________________________
  - Fire watch is supplied with suitable extinguishers
  - Fire watch is trained in use of this equipment and in sounding alarm.
  - Fire watch may be required for adjoining areas, above and below.
  - Monitor hot work area 30 minutes after job is completed.

Other precautions taken:
- Yes ☐/ No ☐ Confined space entry permit required?
- Yes ☐/ No ☐ Area protected with smoke or heat detection?
- Yes ☐/ No ☐ Ample ventilation to remove smoke/vapor from work area?
- Yes ☐/ No ☐ Lockout/tag-out required?
