Subject: University of Virginia, 2014 Annual Standards and Specifications for Erosion and Sediment Control and Stormwater Management

Ms. Carter:

The Virginia Department of Environmental Quality ("DEQ" or "the Department") hereby approves the 2014 Annual Standards and Specifications for Erosion and Sediment Control and Stormwater Management for the University of Virginia, including the documents submitted and included by reference. The Department's approval includes the following condition:

Install and maintain all erosion and sediment control practices in accordance with the 1992 Virginia Erosion and Sediment Control Handbook.

To ensure compliance with approved specifications, the Virginia Erosion and Sediment Control Law and the Virginia Stormwater Management Act, DEQ staff will conduct random site inspections, respond to complaints, and provide on-site technical assistance with specific erosion and sediment control and stormwater management measures and plan implementation.

A 2012 amendment to the Virginia Erosion and Sediment Control law authorizes the state to charge fees for costs incurred in implementing the standards and specifications program. The wording of that provision is as follows:

§62.1-44.15:55.D. "The Board shall have the authority to enforce approved specifications and charge fees equal to the lower of (i) $1,000 or (ii) an amount sufficient to cover the costs associated with standard and specification review and approval, project inspections, and compliance."
Please see the enclosed invoice for Annual Standards and Specifications services during 2014.

Thank you very much for your submission and continued efforts to conserve and protect Virginia's precious natural resources.

Sincerely,

[Signature]

Frederick K. Cunningham
Director, Office of Water Permits
